PERSONAL ITEMS BROUGHT TO TECHNOLOGY CLASS

Acknowledgment of Risk and Safety Expectations

Port Credit Secondary School | Peel District School Board

PURPOSE

A student may bring a personally owned item, tool, machine, part, device, or project material to class for an educational activity only with teacher permission and successful completion of this form. Bringing an item is voluntary and at the student and family's own risk. The teacher must be told before the item is used, energized, tested, repaired, altered, or moved into an active work area.

BEFORE THE ITEM COMES TO CLASS

1. I will describe the item and the proposed learning activity honestly and completely.
2. I will tell the teacher before the item is brought into an active classroom, lab, or shop area.
3. I will follow instructions to remove or control fuel, pressure, stored energy, batteries, sharp parts, fluids, personal data, and other hazards.
4. I will not bring prohibited, illegal, contaminated, unsafe, or unidentified material.
5. I understand that an unsafe or prohibited activity will be refused or stopped.
6. I will use the item only for the stated activity and only at my current safety access level.

ITEM INFORMATION

Student Number: _____

Student name: _____

Parent or guardian: _____ Contact: _____

Item description: _____

Make/model: _____ Serial number: _____

Intended date to bring to class: _____

Intended activity: ☐ Inspection ☐ Demonstration ☐ Educational repair attempt
☐ Project use ☐ Donation consideration ☐ Other: _____

Known defects, damage, hazards, fluids, stored energy, batteries, accessories, or missing parts:

_____

_____

STUDENT AND FAMILY ACKNOWLEDGMENT

BY SIGNING, WE UNDERSTAND AND AGREE:

1. The item is brought voluntarily and at the student and family's own risk.
2. The school is a learning environment, not secure storage or a professional repair facility. The item may be lost, stolen, damaged, altered, soiled, or exposed to normal classroom and shop conditions.
3. The activity is educational. There is no guarantee of repair, function, appearance, value, completion, or return in the same condition.
4. To the fullest extent permitted by law, we accept the risk of loss or damage from bringing, storing, moving, handling, testing, repairing, or using the item at school.
5. We have disclosed known defects, hazards, stored energy, fluids, batteries, accessories, missing parts, and other relevant conditions. We confirm ownership or permission from the owner.
6. We will remove or back up personal data, valuables, and identifying information before the item comes to class.
7. The item will not be used, energized, driven, worn, installed, or relied upon after student work until appropriate qualified inspection or testing has been completed.
8. The family is responsible only for parts, materials, or outside services agreed to in writing before purchase. Student labour is educational, not professional service.
9. We will collect the item by the agreed date. Items left behind will be handled under school and Peel District School Board procedures.
10. The classroom safety agreement, machine passports, access levels, permission each class, personal protective equipment, and safe conduct requirements still apply.
11. This form applies only to the described item and activity. We will update it if the item, activity, hazards, or ownership changes.

This form records permission, safety expectations, and acknowledgment of risk. It does not promise storage, inspection, repair, completion, or return by a particular date.

STUDENT COMMITMENT

I have read this form. I will give complete information, tell the teacher before the item is used, and follow all safety requirements.

Student name: _____

Student signature: _____ Date: _____

PARENT OR GUARDIAN ACKNOWLEDGMENT

I have reviewed this form with the student. I give permission for the student to bring the item and take part in the described educational activity, subject to classroom safety requirements.

Parent or guardian name: _____

Signature: _____ Date: _____
